Gloucester Launches Emergency E-Alerts

A new e-mail alert system has been initiated in Gloucester County to provide residents with e-mail notifications of important information on natural disasters or other locally-declared emergencies in the county. The Emergency E-Alert subscriber option is part of the county's e-news subscriber services. Citizens may select from a variety of topic-oriented news groups to receive updates and current information.

The Emergency E-Alert news group will help enhance direct communications between the local government and residents during a major disaster, such as a hurricane or flood, and other locally-declared emergencies. Preparedness bulletins, shelter or evacuation notices and after-event postings will be sent through the e-mail news service.

To subscribe to Gloucester Emergency E-Alert or to other county e-news subscription services, visit www.gloucesterva.info and click on "Gloucester Connection E-Mail News Service" or call 693-1390 or 693-5730 for assistance.
